May look like it. My guess is that if they are done with construction and can do the cleanup by early next week, they can sample as soon as they are done.

Subject: IAQ sampling on the 4th floor

Hello Mike and Charlie. Spoke with Richard today. He conveyed to me that Chad is working on a schedule for IAQ sampling on the 4th floor for next week. As soon as BOOTS has more information on this, they will let us know. Copying Richard to let him know I passed this to GSA and EPA.

Thanks!
